Note: Figures shown against Sl. Nos. 2, 3, 4, 5, 6 and 7 include Assam state. For Sl. Nos. 4, 5, 6 and 7 projected population of Assam has been taken into consideration since the 1981 census was not conducted in that state owing to disturbed conditions prevailing in that state then. Figures shown against other items exclude Assam state. Area figures given at Sl. No. 3 are provisional. Density figure in item 7 has been worked out on comparable data.

## PREFACE

The 1981 census marked the twelfth Census of India as reckoned from the year 1872 and fourth since Independence. The provisional results of this census based on quick tabulation have already been published in three papers, Paper 1, 2 and 3 of 1981. The final population totals have also been released in paper 1 of 1982.

The General Population Tables which give the basic data such as area, population etc. of the country and the different states and union territories, are being released in four volumes Part II-A, Part II-B(i), Part II-B(ii) and Part II-B(iii).

While the Part II-A volume will contain the A-Series Tables, A. 1 to A. 5, Part II-B(i) will present the General Primary Census Abstract, Part II-B(ii), the Primary Census Abstract relating to Scheduled Castes and Part II-B(iii) the Primary Census Abstract of Scheduled Tribes.

The present volume, namely, part II-B(i) which contains the Primary Census Abstract of the general population, giving the population and area figures, number of residential houses and households, literates, main workers classified by broad categories (i.e. cultivators, agricultural labourers, workers in household industry and other workers), marginal workers and non-workers, will be useful to administrators, research workers and the public as the basic population tables of the 1981 census. The figures are presented at country, state/union territory, district and urban agglomeration/city levels, with rural-urban break up.

I acknowledge the good and timely work done by my colleagues, the Directors of Census Operations in the states and union territories (listed on the next page). They got the Primary Census Abstract compiled for their respective states/union territories, after detailed tabulation of individual slips and household schedules and sent them to the office of the Registrar General, India for scrutiny and consolidation at the country level.

The arduous task of scrutiny and compilation of the Primary Census Abstract and the preparation of the notes was the responsibility of the Census Division of the Registrar General's Office. This task was accomplished ably by the Census Division under the overall guidance of Shri K.K. Chakravorty, Deputy Registrar General (C&T), ably assisted by Shri N.Rama Rao, Assistant Registrar General (C&T) who, in fact, took over at the final stages. Shri S.C. Srivastava, Assistant Central Tabulation Officer, supervised closely the compilation of the Primary Census Abstract and also prepared the notes and inset tables etc. in time. I am equally grateful to Shri V.P. Pandey, Joint Registrar General, India and Shri Tirath Dass, Joint Director of Census Operations for taking prompt and quick action in bringing out this volume in time. I have also made particular mention of the officers and staff of the Census and Printing Divisions associated with this task separately. I am thankful to all of them.

NEW DELHI  
10-8-1983

P. PADMANABHA  
Registrar General, India

## PRIMARY CENSUS ABSTRACT

### General Note

The 1981 Census enumeration was conducted during February-March 1981, with sunrise of March 1, 1981 as the reference point of time. The houseless persons were enumerated on the night of the February 28 and a revisional round was conducted from March 1 to 5, 1981. In certain inaccessible areas, however, the enumeration was carried out non-synchronously. These areas include the snow bound regions of Jammu and Kashmir, Himachal Pradesh, Uttar Pradesh and Sikkim and the operations were also carried out non-synchronously in certain parts of Andaman and Nicobar Islands where the enumeration was carried out in September-October 1980. In Jammu and Kashmir the enumeration was carried out from April 20 to May 10, 1981, the reference point being the sunrise of May 6, 1981. The revisional round was from May 6 to May 10, 1981. This was due to the unfavourable weather conditions that prevailed in February 1981. The census could not be taken in Assam owing to disturbed conditions prevailing there at the time of census.

The census count was preceded by a preliminary operation called houselisting which took place in 1980. An enterprise list which formed part of the economic census was also canvassed during the houselisting operations. The enterprise list was canvassed in collaboration with the Central Statistical Organisation and the data collected through this schedule were processed by that organisation. The data collected through the houselist are being published in a separate volume entitled Part VII-A Tables on houses. During the 1981 census, two schedules—the individual slip and the household schedule were canvassed. Specimen of each of the schedules, the houselist, the individual slip and the household schedule, is given in the Annexe-1. A 'Degree holder and technical personnel card' was given to degree holders and technical personnels for being filled up during the 1981 census. This card was given in sample enumeration blocks in some states and in all enumeration blocks in other states and union territories. The data collected through this card are being processed by the Council of Scientific and Industrial Research.

After the count was completed, the provisional results for the country, the states and union territories giving the basic statistics of population classified by sex and literacy were released on March 18, 1981 through Paper 1 of 1981. Sometimes later, Paper 2 of 1981 presenting the provisional rural/urban distribution of population in the country, the states and the union territories were released in August 1981. Later, Paper 3 of 1981 giving the provisional data of the 1981 census on the distribution of population by worker and non-workers was released for the immediate use of data users. In the same paper data at the district level in the general format of the Primary Census Abstract was also presented.

The provisional results for India published in Papers 1, 2 and 3 were based on a quick tabulation of field totals. This was followed by a detailed scrutiny and tabulation of data contained in the individual slips and household schedules canvassed during the 1981 census in the regional tabulation offices in all states and union territories except Assam. The final population totals of states/union territories/districts/tehsils/urban agglomerations/cities/towns arrived at through this process of manual tabulation were released in Paper 1 of 1982. This paper also contained the rural and urban figures.

The General Population Tables, based on full count are presented in two parts, Part II-A and II-B, the latter being split into three sub parts. Part II-A will contain the general popula-

tion tables A. 1 to A.5 and their appendices. This volume, Part II-B(i), contains the basic data (Primary Census Abstract) in respect of the population of India, its states and union territories, districts and within districts for cities and urban agglomerations each having a population of 100,000 and above. The Primary Census Abstract is presented in two parts i.e. (1) Union Primary Census Abstract which gives the primary data of the country, states and union territories, and (2) State Primary Census Abstract which gives the figures of the states, union territories, districts and within districts for cities and urban agglomerations having population of 100,000 and above.

During the 1961 and 1971 censuses, Part II-B was confined to the economic tables and the Primary Census Abstracts were published as sub part of Part II-A volume. At the 1981 census the latter has, however, been designated as Part II-B. The other sub parts i.e. Part II-B(ii) and Part II-B(iii) of 1981 census, which will follow, will furnish data giving the Primary Census Abstract of Scheduled Castes and Scheduled Tribes respectively. The units of presentation of primary census abstract of scheduled castes and scheduled tribes will be the same as that of general Primary Census Abstract.

This Primary Census Abstract presented in this volume generally corresponds to Table-E of 1951 and the Union Primary Census Abstracts of the 1961 and 1971 censuses. It gives area figures (in Km<sup>2</sup>.), number of occupied residential houses, number of households; total population (including institutional and houseless population); literates; main workers classified by the four broad industrial categories i.e. cultivators, agricultural labourers, workers in household industry (manufacturing, processing, servicing and repairs), and other workers; marginal workers and non-workers. The statistics are presented for persons, males and females by total/rural/urban areas.

### **Compilation of Primary Census Abstract**

In the past few censuses all manual tabulations were produced by sorting the individual slips. The 1981 census made a major departure in the method of manual processing in that the individual slip pads as well as the household schedule books were not broken up. These were kept intact. Aggregation of information for each household was done in the population record (Part II of household schedule) from individual slips by the enumerator himself. In the regional tabulation office a block compilation sheet was prepared in respect of every enumeration block for aggregating the household figures, after comparing the entries with the corresponding entries of the individual slips. Then the figures for each block were copied out in the blockwise Master Primary Census Abstract, wherein totals of every village, in case of rural areas and for each ward for urban areas were struck. Thereafter, rural primary census abstract was prepared separately giving figures of tehsils, development blocks, nyaya panchayats etc. and villages arranged in order of location code. Similarly, in the urban primary census abstract prepared separately for each town, wardwise figures were given. With the help of village/townwise primary census abstracts the district/state primary census abstracts were prepared.

### **Rural and Urban Classification**

Census data have always been presented for rural and urban areas separately. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognised boundaries within each forest range officer's beat was treated as one unit.

The following criteria were adopted for treating a place as urban for the 1981 census :

- (a) All statutory towns, i.e., all places with a municipal corporation, municipal board, cantonment board or notified town area etc.
- (b) All other places which satisfy the following criteria:
  - (i) A minimum population of 5,000;
  - (ii) Seventyfive per cent of the male working population engaged in non-agricultural (and allied) activity; and
  - (iii) A density of population of atleast 400 per sq. km. (1,000 per sq. mile).

A town with a population of one hundred thousand and above was treated as a city.

The urban criterion of 1981 was same as that for 1961 and 1971. However, whereas workers in occupations of fishing, livestock, hunting, logging, plantations and orchards etc., (falling in industrial category III) were treated as coming under non-agricultural activities in 1961 and 1971 censuses, in the 1981 census, these activities were treated as agricultural activities for purposes of determining the male working population in non-agricultural activities.

### **Urban Agglomeration**

The concept of urban agglomeration (U.A.) adopted for the 1971 census continued for the 1981 census. Very often large railway colonies, university campuses, port areas, military camps etc., come up outside the statutory limits of the city or town but adjoining it. Such areas may not by themselves qualify to be treated as towns but if they formed a continuous spread with the adjoining town, it would only be realistic to treat them as urban. Such settlements have been termed as outgrowths (OG), and may cover a whole village, or part of a village. Two or more towns may also be contiguous to each other. Such towns together with their outgrowths have been treated as one urban unit and called 'Urban Agglomeration'. An urban agglomeration, therefore, constitutes:

- (a) A city or town with contiguous outgrowth(s), the outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages; or
- (b) two or more adjoining towns with their outgrowth(s); or,
- (c) a city with one or more adjoining towns with their outgrowths all of which form a continuous spread.

### **Economic Activity**

In the 1971 census, workers were classified into nine industrial categories in the Primary Census Abstract, i.e., I. Cultivators; II. Agricultural labourers; III. Livestock, forestry, fishing, hunting and plantations, orchards and allied activities; IV. Mining and quarrying; V. Manufacturing, processing, servicing and repairs (a) as household industry, (b) other than household industry; VI. Construction; VII. Trade and commerce; VIII. Transport, storage and communications; IX. Other services.

In the present Primary Census Abstract of 1981 census the data for main workers are presented for the four categories: cultivators, agricultural labourers, household industry and other workers. Categories III, IV, V(b), VI to IX have been clubbed together and the data are presented under the category of 'other workers'.

In the 1981 census the information regarding economic activity of the people was collected in greater detail. The economic questions consisted of three parts, namely:

- I. Q.14A Worked any time at all last year?  $\frac{\text{Yes}}{\text{No (H/ST/D/R/B/I/O)}}$
- Q.14B If yes in 14A, did you work for major part of last year? Yes/No
- II. Q.15A Main activity last year?  $\frac{\text{Yes in 14B (C/AL/HHI/OW)}}{\text{No in 14B (H/ST/D/R/B/I/O)}}$
- Q.15B  $\frac{14B \text{ Yes—Any other work any time last year? Yes (C/AL/HHI/OW)/No}{14B \text{ No—Work done any time last year? (C/AL/HHI/OW)}}$
- III. Q.16 If No in 14A or 14B, seeking/available for work? Yes/No

Every person was asked Q. 14A (worked any time at all last year) including the very young or very old and answer to this question was filled in. The other questions 14B, 15A and 15B were to be filled in the case of those to whom they were applicable. These questions were meant to get details of the work done by the people with reference to last one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like gur making, etc., are carried on either throughout the year or only during certain seasons or part of the year depending on the local circumstances. In such cases the broad time span of the agricultural season preceding the enumeration was taken into account.\*

#### Definition of work :

'Work' was defined as participation in any economically productive activity. Such participation was physical or mental in nature. Work involved not only actual work but also effective supervision and direction of work.

According to this definition, the entire population has been classified into three main categories i.e., Main workers, Marginal workers and Non-workers.

#### Main workers:

Main workers were those who had worked for the major part of the year preceding the date of enumeration i.e., those who were engaged in any economically productive activity for 183 days or six months or more during the year.

#### Marginal workers:

Marginal workers were those who worked any time at all in the year preceding the enumeration but did not work for a major part of the year i.e., those who worked for less than 183 days or six months.

\*For a detailed description as to the formulation of the economic questions reference may be made to Paper 2 of 1982—Development of the Economic Questions, Office of the Registrar General, India.

## Secondary work:

Any other work or secondary work was reckoned only if the person was engaged in some economically productive work, even if marginal, in addition to the work under Q. 15A. If a person whose economic activity was shown as a clerk in a government office or a teacher also attended to cultivation even by way of direction or supervision such additional activity was shown as 'any other work any time last year' under Q. 15B.

## Non-workers:

Non-workers were those who had not worked any time at all in the year preceding the date of enumeration.

Workers could be fulltime workers or seasonal workers or marginal workers. That was what questions 14A and 14B and questions 15A and 15B sought to elicit. Question 14A sought to find out if a person had done any work at all during the last year or whether he or she did not work at all and if it is the latter, how the person spent time as a non-worker. Then question 14B sought to find out who among the persons returning 'yes' in question 14A had worked for the major part of the year. By major part of the year was meant that one would have worked for 183 days or more or in other words, worked for 6 months or more. Question 15A sought to elicit information on the main activity of the worker in question 14B.

A person might have worked for six months or 183 days or more (in the aggregate) in more than one activity. For example, a person could have worked for three months in cultivation, one month in gur-making and three months as an agricultural labourer. In question 15A, he was required to indicate which of these three activities according to him was his main activity i.e., in which capacity he had spent more time. In this case since the person had spent three months each in cultivation and as an agricultural labourer the choice as to which of these two was his main activity was left to him.

Question 15B elicited details of secondary work or marginal work. Those who had worked for the major part of the year i.e. 'yes' was recorded in question 14B, might have done some secondary work which had been entered in question 15B. Those who had not worked for the major part of the year and had recorded 'No' in question 14B, might have done some marginal work, which was recorded against question 15B.

A person who normally works but had been absent from work during the reference period on account of illness, holiday, temporary closure, strike etc., was treated as engaged in the work he would have otherwise been doing but for his temporary absence. Persons under training such as apprentices, with or without stipends or wages were treated as workers. A person who had merely been offered work but had not actually joined, was not treated as engaged in that work.

A man or woman who was engaged primarily in one's own household duties or a boy or a girl who was primarily a student, even if such a person helped in the family economic activity but not as full time worker was not treated as worker for Q.14B even though he or she might have been recorded as 'yes' in Q.14A. On the other hand, if a person was primarily engaged in some economic activity for major part of the year but at the same time also attended to some household chores or attended a night school etc., he or she was treated basically as a worker.

A person who merely received an income, such as a rent receiver or a pensioner who did not have to work for receiving the income, was not treated as economically active unless the person was also engaged for some part of the year in some economic activity. Similarly, beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who might be earning an income but who were not participating in any productive work, were not treated as working.

An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources was not considered as working. If, however, in addition to her household work she engaged herself in work, such as rice pounding for sale or wages or in domestic services for wages for others or minding cattle for wages or selling firewood etc., or any other work like cultivation etc., was treated as working under Q. 14A.

A man or woman who was doing household duties might be producing or making something only for domestic consumption of the household and not for sale. Such a person was not considered a worker, even though from his or her point of view the activity was productive.

An undertrial prisoner enumerated in a jail was classified on the basis of the work he or she was doing before he or she was apprehended. However, in the case of a convict in prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work was not recorded. A full-time public or social service worker who was actively engaged in public service activity or a full-time political worker who was also actively engaged in furthering the political activity of his/her party was treated as a worker.

The 'work' concept of 1961 and 1971 censuses, as opposed to the 'Income' or 'Economic independence' concept of the censuses prior to 1961, was retained in the 1981 census also. But the criterion for classification of persons as workers underwent changes. While in 1961 and 1971 censuses dual approach, namely, usual status and current status, were adopted with a reference period of one year for seasonal and one fortnight in 1961 and one week in 1971 for regular work, at the 1981 census the usual status approach was adopted uniformly for all work. In the 1961 and 1971 censuses, classification as worker or non-worker was made through different criteria. In 1961 a person was classified as a worker if he had worked regularly during the last season or if he had worked at least for a day in regular (non-seasonal) work during the preceding fortnight. At the 1971 census a person was treated as a worker only if he spent his time mainly in work or if he worked at least for a day in regular (non-seasonal) work during the preceding week.

In 1981, for main worker, the time criterion of engagement in work was the major part of the year i.e. at least 183 days in the preceding one year, while those who worked for some time during the last year but not for the major part of the year were treated as marginal workers. Those who had never worked during the last one year were considered as non-workers. This approach was adopted with the expectation that a partial comparability of 1981 census economic data with that of 1971 as well as 1961 would be possible. It was expected that the main worker of 1981 would correspond to the worker of 1971 and the main worker and marginal worker together of 1981 would correspond to the worker of 1961.

### **Main Workers**

As mentioned earlier, main workers were classified into four broad industrial categories, described below :

### Cultivators :

A person was considered as cultivator if he or she was engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share of crop. Cultivation included supervision or direction of cultivation.

A person who had given out his/her land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land was not treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both was not treated as cultivator.

Cultivation involved ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., but did not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

### Agricultural labourers :

A person who worked in another person's land for wages in cash, kind or share of crop was regarded as an agricultural labourer. Such a person had no risk in cultivation but merely worked in another person's land for wages. An agricultural labourer had no right of lease or contract on land on which he worked.

### Household Industry :

Household industry was defined as an industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in rural areas, and only within the precincts of the house where the household lived in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion applied in urban areas too. Even if the industry was not actually located in the house in rural areas there was greater possibility of the members of the household participating even if it was located anywhere within the village limits. In the urban areas where organised industry was more prominent, the household industry was to be confined to the precincts of the house where the participants lived. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry.

A household industry is one that is engaged in production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as those practiced by a pleader or doctor or barber, musician, dancer, dhobi, astrologer etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household. A list of a few typical household industries is given in Annexe-2.

## **Other workers:**

All those who worked in any field of economic activity other than cultivation, agricultural labour or household industry were 'Other workers'. The types of worker that came under this category included factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists etc.

## **Non-workers**

If an individual had not worked at all during the last year and 'No' was recorded in question 14A, he or she was treated as a non-worker. Non-workers included (i) those attending to household duties at home; (ii) students; (iii) dependents; (iv) retired persons or rentiers; (v) beggars etc.; (vi) inmates of institutions; and (vii) other non-workers. These seven categories of non-workers are defined below:

### **(i) Household duties:**

This covered all persons who were engaged in unpaid home duties and who did not do other work or had not done any work at all during the last one year preceding the date of enumeration.

### **(ii) Students:**

This covered all full-time students and children attending school.

### **(iii) Dependents:**

This category included all dependents such as infants and children not attending school or persons permanently disabled from work because of illness or old age. It included even able-bodied persons who could not be categorised in any other category of non-worker but who were dependent on others. If such persons who were dependent on others for subsistence were seeking work, they were categorised as 'other non-workers'.

### **(iv) Retired persons or rentiers:**

A person who had retired from service and was doing no other work i.e. not employed again in some full-time or part time work or not employed in some other work such as cultivation, business, trade, etc., or a person who was a rentier or living on agricultural royalty, rent or dividend or any other person of independent means for securing which he/she did not have to work, came under this category.

### **(v) Beggars, etc.:**

This covered beggars, vagrants or persons without indication [of source of income and those with unspecified sources of subsistence who were not engaged in any economically productive work.

(vi) Inmates of institutions:

This covered convicts in jails or inmates of penal, mental or charitable institutions, even if such persons were compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc. in such institutions. But an undertrial prisoner enumerated in a jail was recorded for the work he/she was doing before he/she was apprehended. Similarly, a person temporarily in a hospital or similar institution was recorded for the kind of work he/she was doing before he/she was admitted into the hospital or institution. But for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work was not recorded.

(vii) Other non-workers:

This included all non-workers who did not fall under any of the previous six categories but who were looking for work. A boy or girl who had completed education or stopped studying and was looking for work came under this category. A person who was merely spending his/her time at home as a dependent and was not doing any work and was not seeking any work was not considered as other non-worker but was classified as a dependent.

### **Collection of Area Figures**

Column 4 of the Primary Census Abstract gives the area figures of each territorial unit. Total area figures of states/union territories and districts are supplied by the Surveyor General. Figures for urban areas are those supplied by the local bodies/municipal committees etc. The total area figures for tehsils/taluks etc. are supplied by the Director of Land Records or relevant revenue authorities. Area figures for rural areas are derived by subtracting the urban area from the total area of the district and tehsil. The area figures totalled over all the tehsils/taluks etc. as given in volume II-B of respective states/union territories, sometimes do not tally with the district figures. The discrepancy generally arises because reserved forests do not generally form part of land record figures. Forest authorities on the other hand keep their figures by forest ranges and forest divisions and have not allocated such areas to tehsils, development blocks etc.

In a number of cases it has been found that the area figures of towns are not available. It was, therefore, decided that at tehsil, district and state level, the area figures of all such towns should be shown as 'N.A.' wherever such figures are not available. In such cases a suitable foot note is added.

Where there are a number of constituents of urban agglomeration and the area figures of some of the constituents are not available, in such a situation area figures of urban agglomeration is shown as 'N.A.'. But the area figures of constituent units for which figures are available are shown against the relevant constituent units.

### **Census Houses and Households**

Columns 5 and 6 of the primary census abstract give the total number of occupied residential census houses and the number of households respectively. Some census terms such as a building, census house and household are explained below:

---

'N.A.' stands for not available.

### Building:

A 'Building' is generally a single structure on the ground. Sometimes it is made up of two or more component units which are used or likely to be used as dwellings (residence) or establishments such as shops, business houses, offices, factories, workshops, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

### Census house:

A 'Census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non-residential purpose or both.

### Household:

A 'Household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, etc. These are called 'Institutional households'. There may be one member households, two member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'.

### Houseless population:

The enumeration of the houseless population was carried out in all blocks irrespective of whether it was a universal block or a sample block. The enumerator was required to enumerate the houseless population in his enumeration block(s) on the night of February 28, 1981. In order to do that, it was necessary to complete the enumeration of all the persons in all the households living in census houses in their jurisdiction between February 9 and February 28, 1981. During this period, he was to take note of the possible places where houseless population was likely to live, such as on the roadside, pavements, in hume pipes, under staircases, or in the open, temple, mandaps, platforms and the like. On the night of February 28/March 1, 1981, but before sunrise of March 1, 1981, he had to quickly cover all such houseless households and enumerate them. If there was a very large number of houseless persons in an enumerator's jurisdiction, one or more extra enumerators were deputed to assist him so that all houseless persons were covered on the night of February 28, 1981. It was, of course, made sure that these persons had not been enumerated elsewhere.

### Institutional population:

Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, etc. These are called 'Institutional households'.

The following Statement-1 shows (a) the number of households per 1000 census houses and (b) the number of households per Km<sup>2</sup> in rural and urban areas of each state and union territory.

# STATEMENT 1

Number of households per 1000 census houses and

9 Pondicherry	1080	1044	1117	235.35	143.89	593.84

Note : Density of the households for the rural portion of Jammu & Kashmir has been worked out after excluding the entire area of the illegally occupied portion of Pakistan and China as its rural-urban break up is not available. The same has also been done while working out the density of the households for rural-urban in India also.

\* The figures of India exclude Assam where census could not be held owing to disturbed conditions prevailing there at the time of 1981 census.

† Number of households per 1000 census houses and the number of households per Km<sup>2</sup>, 1981 for India and Jammu & Kashmir exclude areas under unlawful occupation of Pakistan and China where census could not be taken. Similarly the number of households per Km<sup>2</sup> has been worked out on comparative area figures.

‘NA’ stands for not available.

Statement 2 gives the final population of states and union territories as recorded at the 1981 census. It also indicates the ranking of the states by population size in 1981 and 1971 and the percentage contribution in terms of population of each of the states.

## STATEMENT 2

Ranking of states and union territories by population size

Rank in 1981	States, Union Territories in order of population size	Population in 1981	Percentage to total population of India 1981	Rank in 1971	Population in 1971
1	2	3	4	5	6

31	Lakshadweep	40,249	0.01	31	31,810

\*Projected.

Uttar Pradesh continues to dominate the scene and retains its first position. Most of the other states have continued to retain their original ranks. Rajasthan has overtaken Gujarat and has moved up from 10th place in 1971 to the 9th place in 1981, while Gujarat has moved from the 9th place in 1971 to the 10th place in 1981. Delhi, which was 17th in rank in 1971 has overtaken Jammu & Kashmir and moved to the 16th place in 1981, while Jammu & Kashmir has moved from the 16th place in 1971 to the 17th place in 1981.

Statement 3 gives the density of population per Km<sup>2</sup> in the states and union territories arranged in descending order. Statement 4 gives the population per Km<sup>2</sup> in each of the census years 1901 to 1981 of the states and union territories.

### STATEMENT 3

States and union territories arranged in descending order of density of population 1981

Rank	State/Union Territory	Density of population per sq. km.	
		1981	1971
1	2	3	4
1	Delhi	4,194	2,742
2	Chandigarh	3,961	2,257
3	Lakshadweep	1,258	994
4	Pondicherry	1,229	959

\* While working out the density of India, Jammu & Kashmir has been excluded as comparable figures of area and population are not available for that State.

† The density has been worked out on comparable data.

‡ Worked out on the basis of the projected population of Assam.

‘NA’ stands for not available.

Statement 5 gives the sex ratio of the states and union territories from 1901 to 1981. The sex ratio is defined as the number of females per 1000 males.

## STATEMENT 5

Sex ratio, 1901-1981

* Excludes Assam. The sex ratio of India including Assam and Assam separately works out as follows:									
INDIA	972	964	955	950	945	946	941	930	933†
Assam	919	915	896	874	875	868	869	896	901†

† Based on projected population of Assam.

'NA' stands for not available.

The sex ratio has improved between 1971 and 1981 in the country as a whole. This is evident in most of the states and union territories. In the case of Kerala the sex ratio is 1032 females per thousand males and is the only state where the sex ratio is favourable to women.

#### Literates :

Columns 10 to 12 of the primary census abstract give the number of literate persons by sex. The definition of a literate person is as follows : —

“A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.”

The test that was applied for reading was the ability to read any portion of the printed matter in the enumerator's instruction booklet (provided the person was familiar with the language used in the booklet) and the test for writing was the ability to write a simple letter. A child of the age of 4 years or less were treated as illiterate even if the child was going to a school and might have picked up reading and writing a few odd words.

Statement 6 gives the proportion of literates in total, rural and urban areas in the states and union territories.

## STATEMENT 6

Literacy rates, 1981

(The percentages have been calculated on the total population inclusive of the population in age group 0-4)

\* Excludes Assam where census could not be held owing to disturbed conditions prevailing there at the time of 1981 Census.

† Excludes the population of area under unlawful occupation of Pakistan and China where census could not be taken.

Statement 7 gives the ranking by literacy of the states and union territories based on the 1981 and 1971 censuses.

### STATEMENT 7

States and union territories arranged in the order of literacy ranking in 1981 census and comparison with 1971 census

Rank in 1981	State/Union Territory	Literacy rate 1981	Literacy rate 1971	Rank in 1971	Percentage increase of literacy
1	2	3	4	5	6
1	Kerala	70.42	60.42	2	+ 16.55
2	Chandigarh	64.79	61.56	1	+ 5.25
3	Delhi	61.54	56.61	3	+ 8.71
4	Mizoram	59.88	53.79	4	+ 11.32
5	Goa, Daman & Diu	56.66	44.75	6	+ 26.61
6	Pondicherry	55.85	46.02	5	+ 21.36
7	Lakshadweep	55.07	43.66	7	+ 26.13
8	Andaman & Nicobar Islands	51.56	43.59	8	+ 18.28
9	Maharashtra	47.18	39.18	10	+ 20.42
10	Tamil Nadu	46.76	39.46	9	+ 18.50
11	Gujarat	43.70	35.79	11	+ 22.10
12	Nagaland	42.57	27.40	19	+ 55.36
13	Himachal Pradesh	42.48	31.96	15	+ 32.92
14	Tripura	42.12	30.98	17	+ 35.96
15	Manipur	41.35	32.91	14	+ 25.65
16	West Bengal	40.94	33.20	13	+ 23.31
17	Punjab	40.86	33.67	12	+ 21.35
18	Karnataka	38.46	31.52	16	+ 22.02
19	Haryana	36.14	26.89	20	+ 34.40
20	Orissa	34.23	26.18	21	+ 30.75
21	Meghalaya	34.08	29.49	18	+ 15.56
22	Sikkim	34.05	17.74	28	+ 91.94
23	Andhra Pradesh	29.94	24.57	22	+ 21.86
24	Madhya Pradesh	27.87	22.14	23	+ 25.88
25	Uttar Pradesh	27.16	21.70	24	+ 25.16
26	Jammu & Kashmir	26.67	18.58	27	+ 43.54
27	Dadra & Nagar Haveli	26.67	14.97	29	+ 78.16
28	Bihar	26.20	19.94	25	+ 31.39
29	Rajasthan	24.38	19.07	26	+ 27.84
30	Arunachal Pradesh	20.79	11.29	30	+ 84.15

Note: Excludes Assam where Census was not held owing to disturbed conditions prevailing there at the time of 1981 census.

If one ignores Chandigarh which is a highly urbanised area, it will be noticed that among the states, Kerala has a pre-eminent position with regard to literacy and has held this position both in 1971 and 1981. It is encouraging to notice that there has been a steady increase in literacy in the country.

### **Classification of Industry**

The industrial classification used in the population census differed from census to census and, till the 1951 census, it was generally an amalgam of industrial and occupational features. In 1951 a classification called the Indian Census Economic Classification of Industries was adopted. In the 1961 census, the Indian Standard Industrial Classification (ISIC) evolved in 1958 by the Directorate General of Employment and Training was used. At the 1971 census the classification for the presentation of primary census data relating to the industrial categories of the working population had been made on the basis of the National Industrial Classification 1970 (as adopted by the Office of the Registrar General, India for the 1981 Census).

Statement 8 presents the proportion of workers to total population at each of the censuses from 1961 to 1981.

# STATE

Proportions of total main workers, cultivators, agricultural labourers, servicing and repairs) and other workers,

Total Rural Urban	Persons Males Females	Total main workers (I—IX)			Cultivators (I)			Agricultural labourers (II)		
		1961	1971	1981	1961	1971	1981	1961	1971	1981
1	2	3	4	5	6	7	8	9	10	11
Total	Persons	42.98	33.06	33.45	22.56	14.24	13.91	7.33	8.83	8.34
	Males	57.20	52.61	51.62	29.25	24.15	22.56	7.80	11.33	10.10
	Females	27.90	12.06	13.99	15.47	3.60	4.65	6.83	6.13	6.46
Rural	Persons	45.11	34.01	34.76	27.11	17.47	17.76	8.71	10.61	10.39
	Males	58.35	53.62	52.62	35.51	29.89	29.02	9.38	13.73	12.63
	Females	31.40	13.36	16.00	18.41	4.40	5.93	8.01	7.33	8.03
Urban	Persons	33.44	29.32	29.23	2.21	1.50	1.50	1.18	1.77	1.77
	Males	52.36	48.80	48.54	2.93	2.55	2.52	1.17	2.29	2.26
	Females	11.11	6.65	7.28	1.35	0.28	0.34	1.18	1.17	1.21

## Notes ;

1. The 1981 figures exclude Assam as no census was taken there due to disturbed conditions prevailing there at the time of census. For comparative purpose the figures of 1961 and 1971 presented in the above statement also exclude the figures of Assam.
2. The figures for 1971 and 1981 for India are worked out after excluding the population of areas under unlawful occupation of Pakistan and China where census could not be taken.

## MENT 8

household industry (manufacturing, processing,  
to total population (per cent)

Household industry— Manufacturing, processing, servicing and repairs [V(a)]			Other workers [III, IV, V(b) and VI to IX]				
1961	1971	1981	1961	1971	1981		
12	13	14	15	16	17	2	1
2.75	1.18	1.16	10.34	8.81	10.04	Persons	Total
3.34	1.80	1.64	16.81	15.33	17.32	Males	
2.13	0.51	0.64	3.47	1.82	2.24	Females	
2.77	1.11	1.07	6.52	4.82	5.54	Persons	Rural
3.40	1.71	1.51	10.06	8.29	9.46	Males	
2.12	0.47	0.61	2.86	1.16	1.43	Females	
2.65	1.46	1.45	27.40	24.59	24.51	Persons	Urban
3.05	2.15	2.05	45.21	41.81	41.71	Males	
2.19	0.66	0.76	6.39	4.54	4.97	Females	

3. The term 'Main worker' is used for 1981 census. In the case of 1961 and 1971 censuses the reference is to 'workers' only.
4. The proportion of 1961 for India are worked out after excluding 297,853 persons (Males 147,100; Females 150,753 of North-East Frontier Agency now Arunachal Pradesh) for whom an abridged family schedule was canvassed instead of general all India Individual slip and household schedule.

Statement 9 gives the number and proportion of main workers by sex in the country and in each of the states and union territories according to 1981 census. For purposes of comparison, the participation rates according to 1971 census are also indicated.

### STATEMENT 9

Proportion (in per cent) of main workers to total population  
according to 1971 and 1981 censuses

India/State/ Union Territory	Persons Males Females	Total population 1981	Main workers 1981	Percentage of main workers to total population

Form No.

Part I : Household Particulars

Location Code \_\_\_\_\_ Serial number of household (Col. 7 of abridged household) \_\_\_\_\_ Type of household, whether Institutional or houseless\*

1. Name of head of household \_\_\_\_\_
2. Religion of the head of household \_\_\_\_\_
- \*\*3. Whether head of household belongs to S.C. or S.T. If scheduled caste write (1)/If scheduled tribe write (2) \_\_\_\_\_
4. Name of caste/tribe of head of household \_\_\_\_\_
5. Language mainly spoken in the household \_\_\_\_\_
6. Does the household live in owned house ? Yes (1)/No (2) \_\_\_\_\_
7. If 'No' in 6 does the household own a house or house site in the village or town of enumeration ? Yes (1)/No (2) \_\_\_\_\_
8. Predominant construction material of the house occupied by household :

(a) WALL	Grass, leaves, reeds of bamboo (1)	Mud (2)	Unburnt bricks (3)	Wood (4)	Burnt bricks (5)	G.I. sheets or other metal sheets (6)
	Stone (7)	Cement concrete (8)	Others (9)			
(b) ROOF	Grass, leaves, reeds, thatch, wood, mud, unburnt bricks or bamboo (1)			Tiles, slate or shingle (2)	Corrugated iron, zinc or other metal sheets (3)	
	Asbestos cement sheets (4)	Brick, stone and lime (5)	Stone (6)	Concrete R.B.C. or R.C.C. (7)	Others (8)	
(c) FLOOR	Mud (1)	Wood/planks (2)	Bamboo or logs (3)	Brick, stone and lime (4)	Cement (5)	Mosaic/tiles (6)
						Others (7)

9. FACILITIES AVAILABLE TO THE HOUSEHOLD :

(a) Drinking water supply	(i) Source :	Well (1)	Tap (2)	Hand pump/tube well (3)	River/canal (4)	Tank (5)	Others (6)
	(ii) Within premises (1)/Outside premises (2)						
(b) Electricity : Yes (1)/No (2)							
10. Number of living rooms in occupation of household							
11. Number of married couples usually living in the household							
12. Does the household cultivate land ? Yes (1)/No (2)							
13. If 'Yes' in 12, category							
14. If Rented, enter local name of tenancy							
15. Total population of the household (Total of Col. 2 of part II Population Record)							

Owned (1)

Rented (2)

Owned and rented (3)

\*\* Consult list supplied to you. If not belonging to S.C./S.T., put cross (x) in the box.

\*For institutional write '1', for houseless write '0'.

## IMPORTANT INSTRUCTIONS

- 1 Record location code on each schedule and form, etc.
- 2 Do not leave any household or person uncovered in your block.
- 3 Do not forget to enter columns 1 to 7 of the Population Record before starting individual enumeration.
- 4 Do not forget to make repeated enquiries about young children, newly born babies and visitors not enumerated elsewhere.
- 5 Enter serial number of mother if present in the household against her son and daughter aged 10 years and below.
- 6 While making entries for names of Scheduled Castes/ Scheduled Tribes, check names of Scheduled Castes/ Scheduled Tribes with list supplied to you by your supervisor.
- 7 Write legibly.
- 8 Do not do overwriting.
- 9 Do not hesitate to ask your supervisor if you have doubt on any matter.
- 10 Do not allow your work of filling up of entries in the Population Record to accumulate. It should be completed for enumeration done at the end of each day's work.
- 11 Do not misplace or lose any of your forms or papers while performing duties as census enumerator.
- 12 During revisional round, fill in fresh slips for newly born babies and update the Population Record.
- 13 Cover households which have shifted to your block after your first visit but before sunrise of **1st March, 1981**, if not enumerated already in some other block.
- 14 In case of any death in your block before sunrise of **1st March, 1981**, cancel slip of that person if enumerated by you and make necessary corrections in the Population Record also.
- 15 While ticking for information in columns 8 to 35 in the Population Record, make sure that columns 8 to 21 refer to males and columns 22 to 35 to females.
- 16 Check totals of columns in the Population Record before posting in working sheets for enumerator's abstract.

## ANNEXE 2

## LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

### **Foodstuffs**

Production of flour by village chakkis or flour mills; milling or dehusking of paddy; grinding of chillies, turmeric, etc.; production of gur, khandsari, boora, etc.; production of pickles, chutney, jams, etc.; processing of cashewnuts; making of dried vegetables; manufacture of sweetmeats and bakery products; production of butter, ghee, etc.; slaughtering and preservation of meat and fish; fish curing, etc.; oil pressing ghani.

### **Beverages**

Manufacture of country liquor, toddy; production of soda water, ice, ice cream sharbats, etc.; processing of coffee etc.

### **Tobacco products**

Manufacture of bidi, cigars, cheroots, tobacco, snuff, etc.

### **Textile cotton**

Cotton ginning, carding, pressing and baling, spinning, etc.; dyeing and bleaching of cloth; weaving in handlooms or powerlooms or manufacture of khadi; cloth printing; making of fishing nets, mosquito nets, cotton thread, rope, twine, etc.

### **Textile jute, wool or silk**

Similar type of production or processing as mentioned under Textile Cotton but pertaining to the material concerned.

### **Textile miscellaneous**

Making of durries, carpets, hosiery, embroidery work; lace garland making; manufacture of crochet headgear; making of newar, bed covers, (curtains, pillow, pillow cases, etc.); making of mattress, quilt (rezai), etc.; making of namda felt, coconut fibre for upholstery; making of brushes, brooms, etc., from coconut fibres; coir spinning; manufacture and repair of umbrellas; manufacture of dolls and toys (rags and cotton), etc.

### **Manufacture of wood and wood products**

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames, etc., wooden agricultural implements and their repair, wooden lacquerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work; match splinters, plywood and veneers, etc.; making palm leaf mats, fans, umbrellas, etc., baskets and broomsticks, caning of chairs; making of chicks and khas-khas tatties; making of cart wheels, wooden sandals, etc.

### **Paper and paper products**

Manufacture of pulp and paper by hand; making of envelopes, paper made articles, card board boxes, paper flower, paper kites, toys, etc.

### **Printing and publishing**

Printing works, lithography, block-making, book binding, etc.

### **Leather and Leather products**

Flaying and processing of hides and skins ; making leather footwear, wearing apparel of leather and fur ; repair of shoes or other leather products.

### **Rubber petroleum and coal products**

Vulcanising tyres and tubes ; manufacture of chappals from torn tyres and other rubber footwear ; manufacture of rubber products from natural and synthetic rubber.

### **Chemicals and chemical products**

Manufacture of toys, paints, colours, etc. manufacture of matches, fireworks, perfumes, cosmetics ; manufacture of ayurvedic medicines, soap, plastic products, celluloid goods ; manufacture of ink, candles, boot polish, etc.

### **Non-metallic mineral products — other than petroleum and coal**

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone of marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products ; making of earthenware and pottery, crockery, glass beads and bangles, earthen toys ; manufacture of glass products, etc.

### **Basic metals and their products except machinery and transport equipment.**

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bellmetal utensils, aluminium utensils, tin utensils, copper utensils, etc. ; nickeling and electroplating, blacksmithy ; manufacture and repair of agricultural implements such as plough-share, etc., making and repairing of locks and trunks, cutlery ; manufacture of scales, weights and measures and foundry industry, etc.

### **Machinery (all kinds other than transport) and electrical equipment**

Manufacture of small machine tools and parts ; repairing and servicing of fans, radios, domestic electrical appliances, etc.

### **Transport equipment**

Repairing and servicing of automobiles ; manufacture of cycle parts, rickshaw parts, boats and barges ; manufacture of animal-drawn and hand-drawn vehicles such as bullock carts, wheel barrow, etc.

### **Miscellaneous manufacturing industries**

Repair of spectacles, photographic equipment ; goldsmithy, silver filigree industry ; gold covering work, bidriware ; repair of musical instruments, fountain pens ; making of cowdung cakes, manufacture of sports goods ; repairing of petromax lights ; making of buttons and beads from conchshell and horn goods.

## NOTE ON PRIMARY CENSUS ABSTRACT

The Primary Census Abstract for the general population of 1981 census has been prepared on a full count basis. It gives area in square kilometers, the number of occupied residential census houses, households, the total population including institutional and houseless population, literates, main workers, marginal workers and non-workers. The main working population is further classified into four broad industrial categories viz. cultivators, agricultural labourers, household industry and other workers. Figures of each characteristics are classified by sex for total, rural and urban areas :

This Primary Census Abstract is presented in two parts :-

1. Union Primary Census Abstract giving data for India, states and union territories (excluding Assam) ;
2. State Primary Census Abstract giving data for all India, states, union territories, districts, urban agglomerations along with constituent units and cities with a population of 100,000 and over (excluding Assam).

There are cases where the constituent units of an urban agglomeration fall within two or more districts. An indication of such cases has been given in the body of the main table and the consolidated figures of such urban agglomerations, along with the figures of the constituents, are given in Annexe-3 at the end of the State Primary Census Abstract.

The total area of the country represents provisional "Geographical Areas" as on 31st March 1982, supplied by the Survey of India. The area includes 78,114 Km<sup>2</sup> under illegal occupation of Pakistan ; 5,180 Km<sup>2</sup> illegally handed over by Pakistan to China and 37,555 Km<sup>2</sup> under illegal occupation of China in Ladakh district. Area figures are rounded off to the nearest integer in respect of states/union territories/districts.

The rural and urban area figures for India do not include rural and urban figures for Arunachal Pradesh and Sikkim since these are not available. Similarly for comparative purposes the total, rural and urban area figures of Assam are also excluded from India totals though these are indicated in the foot note of the table.

The population figures exclude population of areas under unlawful occupation of Pakistan and China where census could not be taken.

The census could not be held in Assam owing to disturbed conditions prevailing there at the time of the 1981 census. Wherever possible the relevant figures for Assam have been indicated including the population projections for Assam as determined by the Expert Committee on Population Projections set up by the Planning Commission. The total area of Assam as furnished by Survey of India, and its projected population by Rural/Urban and sex break up are as follows :-

		Area in Km <sup>2</sup>	Persons	Males	Females
ASSAM	Total	78,438.0	19,896,843	10,467,461	9,429,382
	Rural	77,819.1	17,849,657	9,309,726	8,539,931
	Urban	618.9	2,047,186	1,157,735	889,451

The following abbreviations have been used for the civic status of the towns :-

M. Corp.	Municipal Corporation
M.C.	Municipal Committee, Municipal Corporation
M.B.	Municipal Board
M	Municipality
C	Corporation
C.T.	Census Town
N.M.	Non Municipal
N.A.C.	Notified Area Council, Notified Area Committee
P	Panchayat
N	Notified Area
Cantt.	Cantonment
C.B.	Cantonment Board
V.P.	Village Panchayat
N.P.	Nagar Panchayat, Non Panchayat
I.N.A.	Industrial Notified Area
N.A.	Notified Area Committee
T.P.	Town Panchayat
S.A.	Special Area
S.B.	Sanitary Board
T.S.	Township
E.O.	Estate Office
U.A.	Urban Agglomeration
T.A.	Town Area
O.G.	Out Growth
